

Engineering GATORTRAX Teacher Information

The following information is needed for our records on the Engineering GatorTrax project. Your signature on the letter will confirm your participation in Engineering GatorTrax for the 2002-2003 academic year. Your commitment to the program includes:

- Attending the 4-hour Teacher Training program
 - Compensation for attending the teacher training session will be \$100.
 - Reasonable mileage will be reimbursed, and must be approved by UF in advance.
- Being prepared to utilize developmental materials in regular classroom instruction.
- Instructing one Saturday Engineering session per month.
 - Sessions will be from 9:00 – 12:00 at the regional community college campus.
 - Compensation for Saturday Engineering will be \$100/session.
- Participation in the annual UF Mini-Institute.
- Providing pre- and post- teacher development assessment data.
- Assisting in student selection through teacher recommendations.
- Providing student data for outcomes assessment.

We are looking forward to an exciting and productive first year. Thank you for your willingness to provide students with additional opportunities to develop their math skills.
